Introduction	1
1 Preliminaries	7
1.1 Secondary representation theory	7
1.2 Local cohomology modules	9
1.3 Cousin complexes	14
2 Finite Cousin complexes	18
2.1 Cohomology modules of Cousin complexes	18
2.2 Uniform annihilators of local cohomology	25
2.3 Applications	34
2.3.1 Partial characterizations	34
2.3.2 Height of an ideal	35
3 Attached primes of local cohomology modules	37
3.1 Attached primes related to cohomologies of Cousin complexes	37
3.2 Top local cohomology modules	42
3.3 Applications to generalized Cohen-Macaulay modules	46
4 Cohen-Macaulay loci of modules	49
4.1 Openness of Cohen-Macaulay locus	49
4.2 Rings whose formal fibres are Cohen-Macaulay	53
4.3 Some comments	58
